## Palestinian Life under Occupation

MIT Student Center Lobby  
Wednesday, November 29th  
12:00 - 8:00 PM

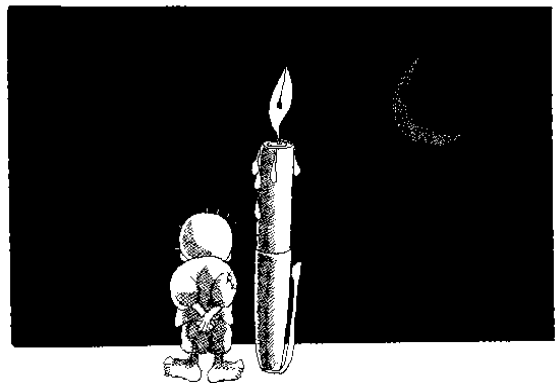

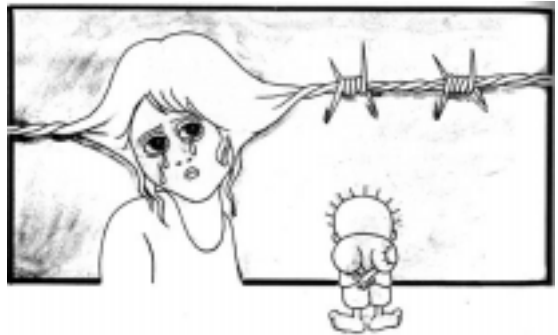

### A Visual Portrait of the Reality of Daily Life in The West Bank and Gaza Strip

"Break the Silence" is a visual portrayal of the struggles of Palestinian life under Israeli occupation and the realities of the current strife. The narrative is told through photographs, maps, poetry, personal eyewitness journal accounts, and memorials honoring all the people who have died. The display is creative, beautiful and deeply moving.

The exhibit expresses bold and honest views of the unfortunate events in the current conflict and seeks to inform people of the complex historic and political context in the middle-east within which the violence and injustice has existed for over 50 years.
